JOURNAL OF THE OPERATIONAL RESEARCH SOCIETY

World List Contraction: *J. Opl Res. Soc.*

Editor: JOHN HOUGH

Editorial Policy: The *Journal* is published 12 times a year on behalf of the Operational Research Society. It is the aim of the *Journal* to present papers which are relevant to practitioners, researchers, teachers, students and consumers of operational research, and which cover the theory, practice, history or methodology of OR. However, since OR is primarily an applied science, it is a major objective of the *Journal* to attract and publish accounts of good, practical case studies. Consequently, papers illustrating applications of OR to real problems are especially welcome.
